Wood Pasture

Ted Green

1. Ancient
2. Part of our history and culture
3. Rich in wildlife
4. Disappearing
A scene of 14,000 years ago ... or 14 hours?
Valuable hunting areas
Wood Pasture - a unique combination of man, animals and trees

Sustainable, historic, cultural system
One of the most natural of all wildlife habitats
The thorn is the mother of the oak
Found in every corner of Europe
Two tier agriculture

Multiple use for
- fruits and seeds
- meat, clothing and dairy
- wood, fuel
- leaf fodder
- wildlife
- tourism
Agro-woodpasture not agroforestry
Since the Dawn of Man, wood-pasture has been part of our evolution.

Ancient, unique, sustainable... irreplaceable
Or?
The choice is ours.....
